

## U6 – U8 VSC Skills Program

The objective of the VSC Skills program is to provide players with the opportunity to learn new skills in a fun and professional environment. Our goal is to allow players to grow and fall in love in the game and provide the first steps into the VSC competitive pathway. Sessions will be developed through games, motor skills courses, mini competitions in order to put children in competition with each other to stimulate them as much as possible. The working groups will be composed according to the age and skills already possessed by the child. Sessions will be progressive from easy to complex (always taking into account the age of the children) and will have different objectives each session. This program will be run by the club's technical staff.

Spots are limited, registering by visiting our website at
